felipedferreira11@gmail.com

Results-oriented web developer with a problem-solving mindset and experience in developing features for large global applications. Extensive experience in both back end and back end tech stacks, as well as working on cross-functional teams. Adept at creating clear and concise code both independently and on a team. Strong communication and ability to learn quickly.

PROFESSIONAL EXPERIENCE

PRICE WATERHOUSE COOPERS, Tampa, FL

IT Development – Senior Associate, April 2019 – Present

- Fixed various bugs in our main in-house accounting application, with over 60k daily sessions.
- Developed application features for the main global application to address business demands.
- Wrote clear and effective code that is pushed to development sites after two rounds of code reviews.
- Addressed client errors in real-time, such as bugs not caught by QA and other developers.
- Used Team Foundation Server for version control and Azure Dev Ops for bug and PBI tracking

PRICE WATERHOUSE COOPERS, Tampa, FL

Junior Web Developer, October 2017 – April 2019

- Created NPM package which streamlined the development of future projects, increasing efficiency by tokenizing application settings in azure dev ops build pipeline
- Mentored new members in learning web development and helped solidify the basic foundations of coding
- Hosted multiple node and ASP.NET core 2.1 applications using Docker containers
- Configured IDAM (Identity and Access Management) for validation and authorization of various systems.
- Collaborated with UI lead developer on multiple projects and quickly improved React skills to ensure our team could stay on schedule, working on parts that needed extra help
- Collaborated with database lead to create data models (ERDs) and wrote Views, triggers and stored procedures
